## New Cantonal Law Implementing Federal Regulations Regarding the Trimming of Hedges and Trees

Since January 1, 2025, the pruning of trees and trimming of hedges are only permitted from September 1 to March 15 of the following year, in order to protect wildlife, particularly birds.

It is essential to carry out this work in such a way that the distance from property boundaries is respected at all times, especially along public land (roads and sidewalks), in accordance with the rules defined in the 1987 Rural Code (see diagram below):

During the next trimming, it is important to anticipate branch growth so that the 0.5 m distance to public land is maintained at all times, both at ground level and at the top of the hedge.

**For hedges, a trimming height of 2 meters must be observed along roads, sidewalks, and public paths!**

For the current year, and considering the major change regarding the permitted trimming period, the Municipality will limit its actions to reminding property owners of these rules and will authorize trimming that is necessary to clear public pathways, even outside the mentioned dates.

Thank you for being  
considerate of your  
neighbours !

## Walking Dogs

Dogs must be kept on a leash in public areas, including agricultural zones and forests. Please pick up after them and dispose of waste in the designated bins.

A dog park is available where they can roam freely, but always under their owner's supervision.

Even on a leash, dogs are not allowed on the beach or at the Sports Center, except on the terrace of the La Bohème restaurant (access only from the parking lot).

The Municipality wishes you a lovely summer.
